

GRAPHICAL DATA

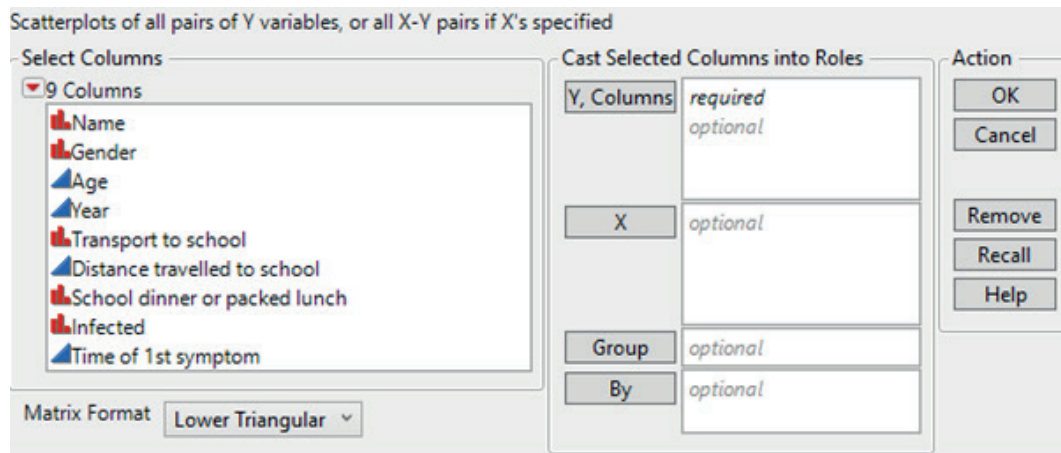

How to...

CREATE A GRAPHICAL CREATION

TASK – TO CREATE A SCATTERPLOT MATRIX.

Follow these simple steps on JMP:

- 1) Rows → Data Filter → Clear
- 2) Graph → Scatterplot Matrix
- 3) Drag Time of first symptom to Y, columns
- 4) Drag Transport to school to the X box then click OK

Quick questions

- a) Which type of transport to school fell ill first?
- b) Why do you think travelling in a car shows symptoms later?
- c) Why do you think travelling on the bus has more people who fell ill?
